Mohammed Karam

Front-End Developer || React.js

Cairo, Egypt

MhmdKaram213@gmail.com | +0201024531535 | GitHub | LinkedIn | Portfolio

SUMMARY OF QUALIFICATIONS

- I'm Front-End Developer with hands-on experience building responsive, scalable web applications using React.js, Next.js, and TypeScript. Combines over one year of professional UI/UX design experience with strong front-end development skills, allowing me to bridge the gap between design and implementation effectively. Proven ability to work with REST APIs, state management, and modern CSS frameworks to deliver clean, user-centered interfaces. Fast learner with a consistent track record of improving through real projects and professional training.

EXPERIENCE

Arib Company — **Des 2024 - Feb 2025**
Junior UX/UI Designer (Tranning) — Nasr-City, Cairo, Egypt

- Car Management App Designed the full UI for a car services management application, covering user flows, wireframes, and high-fidelity prototypes — streamlining how users book and track car-related services.
- Food Delivery App — CRM Dashboard Built a comprehensive CRM dashboard interface for a food delivery platform, designing data visualization components, order management screens, and operational workflows to support back-office teams.

EDUCATION

Bachelor's degree in Computer Science — **Nov 2020 - Jun 2024**
MET Academy, Mansoura — General Grade: Good

Graduation Project — **Jun 2024**
Attendance System By Face Recognition — Grade: Excellent

PROJECTS

Social Hub | React.js & JavaScript | Live Demo

- A full-featured social media web application built with React.js and JavaScript, allowing users to register, log in, and interact through posts, comments, and profile management.
  - Implemented complete CRUD operations for posts and comments, connected to a REST API with JWT-based authentication and protected routes.
  - Designed real-time UI updates and a responsive layout, ensuring a smooth and consistent experience across all screen sizes.
  - Applied React Router for navigation and managed global auth state to handle session persistence and access control.

Fresh Cart | Next.js & TypeScript | Live Demo

- A modern, full-scale e-commerce platform built with Next.js and TypeScript, featuring a rich product catalog across multiple categories including Electronics, Fashion, Sports, and Home goods from brands like Adidas, Puma, Samsung, and more.
  - Implemented product listing by category and brand, product detail pages, cart management, and a complete user authentication flow (Register / Login).
  - Leveraged Next.js Server-Side Rendering (SSR) for faster page loads, better SEO performance, and improved Core Web Vitals scores.
  - Built a clean, responsive UI with smooth navigation across Home, Categories, Brands, and SubCategories pages — optimized for both mobile and desktop.

COURSES & INVOLVEMENT

Front-End Development Diploma (React) — **07/2025 – 02/2026**
Route Academy — Online

- Learned React and TypeScript, with state management and reusable components, in an E-commerce project.
- Learned Next.js basics, including routing and when to use SSR or CSR in components.

UI/UX Design Diploma — **2024 - 2025**
Semi Corner & Route Academy. — Online
